HILO BOARD OF TRADE TALKS

Would Revive Fourth of July Celebrations—Japanese and Waterfront.

(Special Bulletin Correspondence.)
Hilo, Feb. 19.—The adjourned annual meeting of the Hilo Board of Trade took place last Tuesday afternoon, when the following officers were elected, on recommendation by the nomination committee, to serve during the ensuing year: President, Dr. H. B. Elliott; Vice-President, C. E. Wright; Secretary, Wm. McKay; Treasurer, E. N. Deyo; Directors: E. N. Holmes, J. A. M. Oserio, Paula Bartels, A. Lindsay and E. F. Nichols.

On motion by Elliott a vote of thanks was tendered the retiring officers.

The committee which had had charge of the federal building matter presented correspondence from the Delegate on the subject, as well as recommending the passage of a resolution, calling for a special architect to draw up plans.

The board decided to stand behind that bill providing for a record office for each of the counties. The proposition to transfer the authority for the ordering of the construction of sidewalks from the superintendent of public works to the supervisors, caused more discussion. Mr. Wright thought it would be more to the point to have an appropriation passed which would allow the superintendent to enforce the present statute, while Dr. Elliott favored placing such matter of purely local importance in the hands of the supervisors.

Metzger tried to cut the knot by suggesting that both the superintendent and the supervisors might be given such powers, but the discussion ended without any definite conclusion having been reached.

Richards and McKay were added to the membership of the legislative committee.

Filler brought up the fact that the Bishop Estate was about to lease to Japanese, part of the narrow strip of land along the beach near the Waiala bridge.

Dr. Elliott suggested that the Bishop estate did not take much interest in Hilo, anyway, and that a sharp rap over the knuckles would probably be all which the board would get for making any suggestions.

Richards called attention to the offer which had been made over a year ago by the Kukuau Land Co., through W. R. Castle, that it would donate its large block of land on Front street for park purposes, provided the other property owners in the vicinity did the same, or that it would dispose of its holdings at half of their ap-

LANTERNS AND BANZAI, BOTH

Four Thousand Japanese Will March in Notable Parade Tonight.

Four thousand Japanese will march in line this evening in a mammoth lantern parade in honor of the birthday of George Washington. It will be one of the most notable parades in the history of Honolulu, as well as the biggest assemblage of Japanese that ever marched for the colors of another country.

The parade will start at six-thirty o'clock this evening from Ala Park and will end at the Alakea wharf, arrangements having been made between the Elks management and the Japanese to this effect.

The route definitely decided upon is: Leave the park by Beretania avenue, on Beretania to Nuuanu, to King, to Richards, turning makai on Richards to the Alakea street wharf, where Mr. Akai will lead in three cheers for the President of the United States.

Following the cheers, the paraders will listen to the address to be made by Governor Frear, after which there will be banzais for Hawaii and Hawaii's Governor.

Tomorrow evening there will be a lecture on the roof garden of the Young Hotel, by Mr. Camm of the California Development Society. The lecture will be on the Panama-Pacific Exposition and will be interspersed with numerous lantern illustrations.

When you want to send a wireless message ring up 1574 and a boy will call at your office. During the week the office is open from seven in the morning to five thirty in the afternoon and on Sundays from 8 to 10 a. m.

praised value, provided the other owners refused to donate their holdings. This matter was referred to the legislative committee.

Wright called attention to the fact that Hilo had not had any Fourth of July celebration last year, and it would be a shame to see the day overlooked in the same way this year. Dr. Elliott, he said, had some good ideas in mind in regard to this matter.

Metzger suggested that the board should take hold of the matter, and that an effort should be made to give the event a patriotic flavor. Finally the chair appointed Filler, Wright and Holmes as a committee to take charge of the matter.

TAX RESOLUTION IS FAR REACHING

Fairchild's Measure Would Establish Joint Board On Problem.

A systematic plan for the investigation of all possible sources of Territorial revenue is contained in a resolution that was presented to the Senate yesterday by Senator Fairchild of Kauai and passed by the upper House. The resolution embodies the far-reaching principle that before the tax rate is increased a joint committee composed of members of the House of Representatives and the Territorial Senate shall go to the bottom of every possible source of Territorial revenue.

The full terms of the resolution read as follows:

"Whereas, With each session of the Legislature there is an ever-increasing demand, out of proportion to the increase in revenue, for appropriations for a greater advance in the practical and more efficient education of our youth, for the relief and prevention of sickness, poverty and disease among the inhabitants of the Territory, for constructing much-needed schoolhouses, hospitals for the sick, asylums for the unfortunate, and providing increased comfort and relief to the afflicted on Molokai, and for a systematic and effective campaign against tuberculosis and mosquitoes, etc., etc.; and

"Whereas, The present bonded debt of the Territory is already so large that during the present biennial period of the total appropriation of \$2,828,031, the sum of \$332,500, or nearly 12 per cent, was required for interest alone, and the sum of \$51,203.16 for sinking fund charges; and

"Whereas, The tax on real and personal property is already high, due to the extreme valuations placed on such property, which, when coupled with an income tax of 4 per cent, makes the burden of taxation such that those upon whom it chiefly falls seriously object to any increase at this time; and

"Whereas, It is necessary in the interest of health and education to devise adequate ways and means to meet the pressing needs of the Territory now confronting the Legislature, as outlined in the Governor's message and budget, and the bills and resolutions introduced by members of this Legislature; and

"Whereas, Large sums have been spent and are being spent to bring into the Territory settlers who will become citizens, and such a worthy object cannot be permitted to result in disappointment on account of a failure to adequately provide for the health and practical education of such immigrants; now, therefore, be it

CAUSES 95 PER CENT OF DISEASES

Advice Concerning Stomach Troubles and How to Remedy Them.

Do not neglect indigestion which leads to all sorts of ills and complications. An eminent doctor once said that ninety-five per cent of all the ills of the human body have their origin in a disordered stomach.

A physician who made a specialty of stomach troubles, particularly dyspepsia, after years of study perfected the formula from which Rexall Dyspepsia Tablets are made. Our experience with Rexall Dyspepsia Tablets leads us to believe them to be the greatest remedy known for the relief of acute indigestion and chronic dyspepsia. Their ingredients are soothing and healing to the inflamed membranes of the stomach. They are rich in pepsin, one of the greatest digestive aids known to medicine. The relief they afford is almost immediate. Their use with persistency and regularity for a short time brings about a cessation of the pains caused by stomach disorders. Rexall Dyspepsia Tablets will insure healthy appetite, aid digestion and promote nutrition. As evidence of our sincere faith in Rexall Dyspepsia Tablets, we ask you to try them at our risk. If they do not give you entire satisfaction, we will return you the money you paid us for them, without question or formality. They come in three sizes, prices 25 cents, 50 cents and \$1.00. Remember you can obtain them only at our store, The Rexall Store, Benson, Smith & Co., Ltd.

KAMS TO SHOOT AT FORT SHAFTER

Track Meet Feb. 25 to Prepart for Regular Contest With Punahou.

The members of the three upper grades of the manual department will go out to Fort Shafter next Monday morning for target shooting. The first day will be spent in preliminary firing and the second day the cadets will shoot for record. Any cadet making a total score of 42 at the prone position and 35 points standing will be entitled to a bronze medal. The cadets are eager for the date to come.

The Kamehameha Schools rifle club has received a challenge from the Southern High Training School of Philadelphia, Pa., to a shooting match through correspondence between April 19 and April 15. The president of the club will consider the challenge and may accept it. Another challenge has been received from the Harvard School, Los Angeles, Cal.

Captain Winters is testing all the cadets at gallery practice daily and will pick a team out of the best shots in about two or three weeks.

There will be a track and field meet on Saturday, February 25, on the school grounds. The team to represent the school in the coming meet with Punahou will be chosen then. Captain Godfrey is having a difficult time in the track work, looking after both the field and track men. He has had so much work on hand that it has been possible for him to appoint an assistant track captain, and Walter Kamao will take up the position and will be in charge of the field work, while Godfrey will put his time in with the track men. The shot putters are doing hard work and some splendid material has been found. Walter Kamao will throw the shot forty feet on Saturday afternoon. Brandt also made a good showing by throwing the shot 39 feet 6 inches. The track men are doing some hard work also. Sam Hussey and J. Kalanihiwa are among the new recruits trying for the half mile and are likely men for those events on the school team this year.

The commissioned officers went out to Fort Shafter yesterday morning to watch the battalion go through the different drills.

George Manoha will not meet Manuel Gonzalez at the Athletic Park on Washington's Birthday in a hundred-yard dash, but arrangements might be made for him to race Manoha at the school on any date.

Among the many beautiful and expensive decorations for the holiday occasion is the one put up by "The Clarion" at the corner of Fort and Hotel streets. No partiality has been shown in the design. The word "Welcome" in brilliant electric lights with the Shriners' badge at one end and the Elks' badge at the other, all outlined in lights, makes a striking display, and has received much commendation.

The Cadillac owner sees nothing in any other car which he envies

More impressive than anything we might say about the car, is the complete contentment of the Cadillac owner.

If he felt that another car possessed some qualifications which his Cadillac lacked, it would be only human nature for him to experience a little twinge of envy; even if the other car cost twice as much money.

But you may experiment with the first Cadillac owner whom you encounter; and you will find that he is not conscious of the slightest deprivation.

He is more apt, on the contrary, to ask you to point out, how it would profit him to own a costlier car. And, if you follow him in the analysis of internal as well as external construction, you will be puzzled for an answer.

He will begin by pointing out to you that the service which a car renders, and the comfort which its owner enjoys, is entirely dependent upon the integrity of its mechanical construction.

And he will gently remind you, in that connection, that Cadillac practice is held in world-wide esteem by engineering experts—that the Cadillac "shop" is admired as a model—in men, machinery, methods and management.

Pleasant evidence of the extent to which the Cadillac reputation has traveled was given in England recently during the visit of the American Society of Mechanical Engineers to Great Britain. The wonderful standardization test, in which three Cadillacs were torn

down and reconstructed from a haphazard pile of parts, and for which the Dewar Trophy was awarded, was evidently fresh in the minds of British engineers and journalists.

are both of interest to Cadillac owners, present and prospective. Quite frankly it was asked, how the Cadillac Company could build a car which won the world's trophy for

Cadillac "Thirty"

The tribute that was paid by London journalists to the Cadillac standard elicited an inquiry and an answer which were illuminating; and which

standardization, and profitably manufacture it to sell at so low a price. The gist of the explanation given can be gathered from a single statement

DEMI-TONNEAU, \$1700.

Prices include the following equipment: Bosch magneto and Delco ignition systems. One pair gas lamp and generator. One pair side oil lamps and tail lamp. One horn and set of tools. Pump and repair kit for tires. 60-mile season and trip Standard speedometer, robe rail, full foot rail in tonneau and half foot rail in front. Tire holders.

made in reply, to-wit: That the Cadillac Company had always practiced the principle that, in building motor cars, it costs less to do work that is clean, close and accurate than it does to do work that is poor and slovenly. But in order to do work that is close and accurate, you must have the right equipment and the right organization.

When your Cadillac owner tells you that he is perfectly content—that he can't see anything in any other car, at any price, which he does not enjoy in his car at \$1700—he bears witness to the fact that the Cadillac policy of close, fine, conscientious workmanship is the correct policy from every standpoint.

The Cadillac was awarded the Dewar Trophy precisely because of the pursuit of this principle.

The Cadillac owner is content with his car because it exemplifies the same qualities that won the Dewar Trophy.

Every Cadillac ever built is a Dewar Trophy Cadillac. In other words, it is the finest specimen of standardization, interchangeability and perfect alignment in existence.

When you have said these things, you have said that it is the best motor car value—because upon the qualities which we have specified depends, and depends entirely and exclusively—the kind and the extent of the service you get out of your car.

For your own enlightenment—test the complete satisfaction of the first Cadillac owner you encounter.
